FARAJA/ Comfort

Comfort, comfort my heart is troubled,
My heart is troubled my savior, I don't know to reinstate

You know the peace comes from God, and he shall comfort my entire heart,

There are people who suffer on earth and face many distresses lets have compassion on them, lets pray for them, In Congo and Burundi, Rwanda and Sudan there is blood shedding, They are looking for the peace and refuge, they are lacking peace, where shall they get peace?

I know the comfort comes from God, and he shall comfort my entire heart.

God shall comfort you,
I've been suffering, getting distresses in my heart, here and there I've been wondering looking for the peace, I didn't know where to get one, but now I know, the comfort is in God, is available to God, I know.....

FUNGUA MACHO/ OPEN UP YOUR EYES

TWAKUSHUKURU/ We are grateful

We thank God our father; you have given us a good name, that we are called children of God.

Street children are no longer our name, street children are not our parent, and our name is Children of God.

We have been given many names, we are called scavengers, and we are called street children, our name is children of God.

Thanks God for loving us, comforting your children, you have raised your servant to comfort us in our distress.

We pray to you God our father, give us grace, comfort us spiritually, so that we can live for your faith, our God is looking people who are willing to work with him, to care for us, for he is father of fatherless.

Oooh! We are no longer orphans, father is taking care for us, he protects us, he gives us garments, and he loves us x 3

USIONE NATEMBEA/ Don't wonder that I'm walking

Don't wonder that I'm talking
Don't wonder that you're talking

Our bodies are weak, our bodies that we possess are the soil and on dusts we'll
return

Course the aspire of the flesh is death while the desire of the soul is everlasting life
and peace, don't follow body's wills you'll get lost, look for the soul's will to be
pleased before God,

Don't be proud of your body, God knows the life of life, course is on God's hand, the
life of your life God knows, be humble before God, worship God, the life is never
bought by money or bribe the God knows the mystery of your life, look at God,
honor God.

You don't know where are you going to be the one coming minute, you don't know
which day are you going to be perished, get ready in humbleness, fasting and
praying.

Our bodies are weak, our bodies that we possess are the soil and on dusts we'll
return x2

Look at Jesus, Lift him, in your life lift him, in your home worship him, course he is
able, he is enough.

Use your body dancing before God; use your body worshiping God,
Don't use your body worldly things; use your body pleasing God.

Political and religious leaders go on teaching and warning, if you'll not speak its going to be source of street children

It's really sad to see our fellow children in streets that are orphaned, suffering.

Children ask themselves, dad! Where is mum?

Children ask themselves, my sister! Where is mum?

Children ask themselves, my sister! Where is dad?

Children ask themselves, my brother! Where is mum?

AIDS killed many, in Mbeya, Dodoma Arusha many were perished,

Many have died in Tanga, Morogoro,

Many have passed away in Songea, Mwanza and Kigoma

It's really sad to see our fellow children in streets that are orphaned, suffering.

My relatives have passed away for the war,

Civil war have killed many,

Religious fighting have taken many peoples lives,

Iraq, Somalia, Congo, Rwanda and Burundi.

Lets unite together and help them!
